## DR. L.P. DUTTA LIBRARY: DHSK COMMERCE COLLEGE

## Introduction:

Dr. LP Dutt Library of DHSK Commerce College, established in the year 1960, is a wellequipped and resourceful institution located within the College campus. It plays a pivotal role in supporting the academic endeavours of students and faculty members. The library is named after Dr. L.P. Dutt, a prominent figure in the field of education and a respected academician.

#### **Physical Infrastructure:**

The library spans an impressive total area of 9560 sq ft, encompassing both the ground floor and the first floor. The expansive space is thoughtfully organized to facilitate efficient use of resources and to create an encouraging environment for studying and research. With a seating capacity of 110, the library comfortably accommodates students and teachers and provides a quiet and focused ambiance.

## **Operating Hours and Services:**

The library operates from 9:00 am to 5:00 pm, providing ample time for students and faculty to access its resources. It follows an open access system, allowing users to directly access and retrieve materials from the shelves. This system enhances user autonomy and engagement with the collection.

**Collection Overview:** The library boasts an extensive collection that caters to diverse academic needs. The collection includes:

- o 29,798 textbooks, covering a wide array of subjects and disciplines.
- o 8,795 reference books, offering in-depth information and supplementary materials.
- o 14 subscribed journals, providing current and relevant scholarly articles.
- 7 periodicals, keeping users informed about the latest developments in various fields.

## **E-Learning and Technological Integration:**

The LP Dutt Library embraces modern technology to enhance its services. It is a participant in the N-List program provided by INFLIBNET, which offers electronic resources, databases, and scholarly content to students and faculty. This program significantly enriches the research capabilities of library users.

## Automation and Library Management System:

Since the academic year 2014-15, the library has adopted a partially automated system to manage its operations. This includes functions such as book acquisition, cataloging, circulation, serial control, and an Online Public Access Catalogue (OPAC). The library uses the SOUL-3.0 system, a fully featured and scalable library management system, which facilitates cataloging, customizable searches, and online circulation.

## **Barcode Technology and Membership:**

The library employs barcode technology for efficient membership registration and book issuance/return. Students receive a bar-coded Identity Card upon admission, which doubles as a library membership card. This technology streamlines the borrowing process and ensures accurate tracking of library resources.

## **Online Public Access Catalogue (OPAC):**

The library's OPAC system enables users to search the entire library collection, providing comprehensive bibliographic information and the physical location of each book. This user-friendly interface assists in locating resources quickly and supports a multidisciplinary approach to information retrieval.

## **Information Technology Facilities:**

The library houses 12 LAN-connected desktop computers in the Internet Section, equipped with Wi-Fi and internet connectivity. Users can access online resources, conduct research, and utilize online services. A printer is connected to these computers, facilitating the printing of materials accessed from the internet.

## Webpage and Digital Resources:

The library has created a dedicated webpage within the college website that is linked to all the eresources subscribed by the institution. This webpage proved especially invaluable during the pandemic-induced lockdown, providing seamless access to academic resources, publications, question papers, syllabi, and other important materials.

## **Reprographic and photocopy facility:**

The Library goes the extra mile in facilitating academic and research pursuits by providing an integrated reprographic and photocopy facility. Open to students, teachers, and researchers, this resource enables efficient duplication of essential documents. By offering a seamless way to reproduce valuable information, the college supports its academic community in their quest for knowledge dissemination and scholarly excellence.

**D-Space Impact:** The availability of D-Space, which can be accessed through the college website around the clock using mobile phones, likely contributed to the increased figures of library visits. This digital platform seems to have facilitated easier access to academic materials, thus encouraging more visits from both teachers and students.

The LP Dutt Library of DHSK Commerce College stands as a beacon of knowledge and learning, offering a rich and diverse collection of resources, modern technological integration, and a comfortable study environment. With its user-friendly services, digital integration, and commitment to meeting the academic needs of its users, the library plays a vital role in enhancing the educational experience of students and faculty alike.
